ADOPTION CHOICES

# ADOPTION CHOICES

**Every year, hundreds of couples who choose adoption do so because they want nothing more in the world than a child to love unconditionally and care for, forever.**

- We do a thorough screening of every family including background and criminal checks before approving them to adopt.
- We believe in equipping you for a successful adoption. Adoption Training is required for all adoptive families. We require attendance at two Adoption Seminars.
- We are available by phone or email to offer assistance or referrals for any issues that may arise or to simply offer encouragement during the waiting period.
- Our adoption staff has raised adopted children and can offer ongoing counsel and support for any adoption or parenting issues that may arise in a family.
