Life is Beautiful

GETTING STARTED

If you are ready to take the first step, read through our criteria for adoption in our information packet and then contact us to sign up for a home study. You will be matched with an adoption specialist who will walk you through each step in your adoption journey. We do a thorough screening of every family including background and criminal checks before approving them to adopt.

Once your home study has been completed, you will be ready to attend our Adoptive Family Training classes. Because we are committed to make sure you are equipped for a successful adoption, Adoptive Family Training is required for all of our adoptive families.

After Adoptive Family Training is complete, you will be eligible for selection by one of our birth mothers. Your adoption specialist will be on hand during this exciting phase of the process. Once you have been selected your adoption specialist will continue to walk you thorough the legal process.

Be sure to take advantage of our Support Services throughout the experience. We are always available by phone or email to offer assistance, referrals or to simply offer encouragement when you need it.
